

## Zirconium Oxide Powder

Zirconium oxide powder has the properties of high melting point, high resistivity, high refractive index, and low thermal expansion coefficient. As a global supplier of Zirconium Oxide (Zirconia), Nextgen Advanced Materials supplies customers with high-quality ZrO<sub>2</sub> products with high quality and fast delivery, and customized products are also

available.

### Product Description

Related products: Zirconia Crucible, Zirconia Rod/Tube

High quality Zirconium Oxide Powder is offered by manufacturer Nextgen Advanced Materials INC. We have the distinct advantage that each and every employee is personally responsible for the company's success. Everything we do is infused with pride of ownership and pride in a job well done. Zirconium oxide powder has the properties of high melting point, high resistivity, high refractive index, and low thermal expansion coefficient. It is used for electronic ceramics, structural or biological ceramics, advance refractory material, ceramic pigment or glaze, artificial gem, grinding and polishing, etc.

### Specification:

Name	Zirconium Oxide
Purity	99.5-99.99%
CAS	1314-23-4
Application	Piezoelectric ceramics, refractory materials, functional ceramics and structural ceramics.
